

Consulta Vídeo del tema 19: Argumentos

Hola a todos. Siguiendo el código del video me esta dando un error que no puedo solucionar. Estimo que esta relacionado a la declaración de los argumentos en Main -> EditConfigurations en IntelliJ que es un paso que no se ve en el video.

Paso los prints de pantalla por si alguien puede pasarme algún tip, link o dato que me ayude en la búsqueda de la solución

```
1 public class Main {
2     @
3     public static void main(String[] args) {
4
5         // --opcion VALOR
6         /*
7         +-----+---+-----+-----+
8         | --minval |10 | --maxval | 100 |
9         +-----+---+-----+-----+
10        | 0       | 1 | 2       | 3   |
11        +-----+---+-----+-----+
12        */
13
14        String opcionMinVal = args[0];
15        int valorMinVal = Integer.valueOf(args[1]);
16        System.out.println("opcion: " + opcionMinVal + " valor: " + valorMinVal);
17    }
18 }
